THE BOARD OF HEALTH.

The Lively Document Which was the Feature of the Last City Council Meeting.

The Prevailing Sickness Laid to the Impure Water Supply.

The Board Recommends that Sewer Work be Suspended for a While-The City Dump.

To his Honor the Mayor and to the City Council-The board of health has the honor to submit the following report: The present condition of the health of the city is alarming. Typhoid fever and malaria prevail to an extent never before approached. The causes for all this is unknown, but the board of health has the following suggestions to offer: It is recognized in the older cities that continual agitation of the streets -long sieges of repairs and improvementsbreeds pestilences. Accepting this theory, in the present state of affairs it would be well to abandon for a period the extensive grading and cuts and changes going on in our city. But a more probable cause for our undue sickness is the bad water. In the past the whole community was in common in a hue and cry against the Hale water supply and the Woolston water supply. The moral effects of these waters, added to the actual poisons carried in them, no doubt are responsible to a very great degree for the epidenics prevailing. Now, in face of the pleadings of this outraged community, you, the council, have signified to contract for this same Hale water and Woolston water, to be diluted with the litle clean water of the West Side company, and propose endangering the public health five years more. Without reserve we, the board of health, strenuously object to this unsanitary measure. Referring again to the streets: They are in such horrid condition that invalids cannot stand the drive upon them, the tired cannot recreate upon them, nor the pleasure seekers find anywhere to drive; while for persons who must travel rapidly, or by night, they are absolutely wickedly dangerous. We would, therefore suggest, leave Mount Helena alone and level off some mole hills. In the matter of bad smells and nuisances, they are infrequent, but always receive the notice of this body. It has always advised connection of houses with the sewer, and in cases where danger was probable, absolute orders were given to so connect.

Complaints have been made against the well to abandon for a period the extensive

cases where danger was probable, absolute orders were given to so connect.

Complaints have been made against the city dumping ground. In several cases, cows pasturing on the commons fell upon these, and their milk was contaminated, from which cases of sickness generated. We advise the city to burn the garbage or to the common it. In conclusion the beard fence it. In conclusion, the board of health would recommend that if the Helena city council decree that the duty of the Helena city board of health is to nose the Helena city board of health is to nose about cess pools and to adjust claims between filthy tenants and pecunious landlords, while it, the council, discusses the scientific and pecuniary sections of sanitation at \$5 per night, then it would be wise to legislate this body out of office.

About the Y. M. C. A. R. D. Sniffen, a trustee of the Y. M. C. A., said yesterday that there is no truth in the statement that the Y. M. C. A. had abandoned its hall and gymnasium because there was a lack of funds. He says the association can meet all bills and has \$2,400 to expend in refitting a new hall, which will be selected as soon as a new secretary and in-structor is secured. For this purpose the trustees held a meeting Tuesday night and instructed one of their number, who is going instructed one of their number, who is going east in a few days, to secure a good man, one who is a Y. M. C. A. worker. It is claimed that while Prof. Bellis was a good athlete, he could not increase the membership. The apparatus and furniture of the gymnasium have been stored away in Assembly hall, and it is promised that before long the association will reorganize and start arew. start anew.

BLAKE IN A BAD BOX.

A Dry Goods Drummer Who Finds a Sim pler Way of Making Money.

There are a dozen business men in this city and in adjacent towns who want to interview W. E. Blake. A warrant was sworn out for his arrest yesterday, but it is said that Constable Cleary was backward about serving the paper, fearing the man might commit suicide, imitating Bell, the Grand Central hotel suicide. The charge against Blake is obtaining money under false pretenses. All of his victims have not made themselves known yet, but they are increasing in number. Blake has been a traveling salesman for a St. Paul dry goods house, and established his head-quarters in this city, where his wife and four children reside. Until recently he had a bank account with the First National, but this has become exhausted. Notwithstanding this, he issued checks in payment for purchases, and in some cases made out drafts on the St. Paul house. Being well known, the different firms with whom he had business, readily took his checks and drafts. Blake's method leaked out yesterday, when Mr. Raleigh, of the dry goods firm of Raleigh & Clarke, presented one of his checks for \$50 for payment at the First National bank. Finding that the piece of paper was worthless, he made a complaint against Blake. Among his victims are D. J. Hennessy & Co., of Butte, \$100; Montana Central ticket office, \$75; Northern Pacific ticket office, \$50; a firm in Missoula, \$100, and Gans & Klein. Blake has not yet been arrested. traveling salesman for a St. Paul dry
